

RAIN BARRELS!

With NJ Watershed Ambassador Carmela Buono

Rain barrels offer an opportunity to assist with storm water management and consider the different ways we interact with storm water and runoff in our daily lives. They are quick and easy to use, conserve water use, and a great addition to gardens.

A limited number of barrels will be available to make at the meeting for those who are interested, and for the rest, they will be able to watch and learn as well.

Call 908-730-6135 to reserve a rain barrel, as they will go quickly.

Otherwise, the Garden Club is drop-in, so feel free to come on by.

The Raritan Headwaters mission is to protect, preserve and improve water quality and other natural resources of the Raritan River headwaters region through science, education, advocacy, land preservation and stewardship.

And check out the Plant Swap Table, where gardeners bring in seedlings, books, etc. to swap.

Tuesday, May 23 at 7pm

North County Branch Library 65 Halstead St. Clinton, NJ

The Garden Club is DROP-IN, so feel free to come on by!
