

The Great American Solar Eclipse of 2017!

With Paul Cirillo

On August 21st, a total eclipse of the Sun will be visible in the United States along a 70 mile wide path from Oregon to South Carolina. This will be the first total solar eclipse visible from the contiguous United States since 1979. Join Paul Cirillo as he leads listeners through the history of eclipses, how and why they happen, and how to best prepare to view this year's best astronomical event.

Paul is a Board Member of the New Jersey Astronomical Association, which operates the largest public observatory in New Jersey, and is an outreach "Ambassador" for NASA's Jet Propulsion Laboratory.

Tuesday, July 25 at 7pm

North County Branch Library 65 Halstead St. Clinton, NJ
