

NCB Library Seed Exchange

Our seed exchange has included seeds from Baker Creek Heirloom Seeds, Botanical Interests, Burpee Seed, Hudson Valley Seed, and Stokes. It also includes seeds donated by local gardeners or wish to reduce, reuse and recycle, share with fellow gardeners, and/or preserve heirloom varieties. Commercial seeds are kept separate from the home-grown seeds.

Before you purchase your seeds next winter, be sure to check what seeds are available for you to take.

This summer and fall, consider if you have any seeds that you would like to donate. Donated seeds can include partially-used new seed packets or properly harvested seeds.

The Seed Share is an honor system. All seed material is free and available for non-commercial purposes.

No guarantees are made regarding seed labelling or viability.
