

The Native Plant Society of New Jersey

Invasive Aquatic Submersed Plants in New Jersey

with Chris Boyle

Director of Biology for Solitude Lake Management

Chris Boyle will talk about Invasive Aquatic Submersed Plants in New Jersey. He will give us general information on submersed aquatic plant communities, and why invasive aquatic plants are an ecological threat to our natural resources. Next he will go into a discussion of 16 different invasive aquatic plants that occur in New Jersey. The second section will detail how lake managers assess and map submersed aquatic plant communities.

**Tuesday, October 16 at 7:00pm
at the North County Branch Library**

65 Halstead Street, Clinton, NJ

This program is FREE and open to the public.
