

CANCER

Alternative Non-Toxic Cancer Treatments That Work and You Don't Know About, Why?

with Dr. Derek Rodger (ND)

The four main causes of death in the U.S. are heart disease, cancer, diabetes and Alzheimer's, all of which keep rising every year. Why? Dr. Derek Rodger (ND) will explain why this is happening and what you can do to prevent yourself from getting any of these diseases.

After losing his sister to the main stream orthodox treatments used for cancer and later reading a report published in the Journal of Clinical Oncology, that chemotherapy, radiation and hormone blocking drugs fail 97% of the time, Dr. Rodger (ND) decided to go back to school and became a Naturopathic Doctor. In his Clinton and Flemington based practice, "2nd Opinion, Non Drug Health Solutions", he uses science-based, clinically verified, holistic medical nutrition and herbs.

**Thursday, January 19 at 7:00 pm
at the North County Branch Library
65 Halstead Street, Clinton, NJ**
