

# ReVital

## Cancer Rehabilitation

Do you know that more than half of the 16.5 million cancer survivors in the United States will develop pain or functional issues related to their cancer or its treatment. Restoring and maintaining function and quality of life is the primary mission of ReVital Cancer Rehabilitation. Therapists understand the unique challenges patients face while undergoing cancer treatment, and choose to specialize in cancer therapy because they want to help people thrive, not just survive. Issues can include, but are not limited to, pain and spasms, fatigue, balance, mobility, strength, endurance, memory, concentration, lymphedema, speech, swallowing and enhancing function. Kessler Rehabilitation Center is now offering ReVital at their facilities.

**Friday, April 27 at 11:00 am**  
**at the North County Branch Library**  
65 Halstead Street, Clinton, NJ

**This program is FREE and open to the public.**
