

global warming. True/False?

Truth or Fiction—How to be Certain

With Dr. Robert De Saro

Dr. Robert De Saro will present his 2nd talk in regards to relying on our reason and judgment, as well as techniques that are useful in how we judge the validity &/or truth of a claim. When confronted with different facts on any topic, but especially on global warming, how do you judge which is true and which is false?

Robert De Saro has spent over 30 years working in various energy fields with 52 publications, three patents, and two book chapters related to energy. He is president and founder of Energy Research Company where he conducts research on laser applications for measuring material chemistry and energy use and also conducts industrial plant assessments to reduce their energy use. He received his MS in Aeronautical and Astronautical Engineering from MIT, and a BS in Aerospace Engineering from the University of Michigan.

A Meet and Greet will be following the talk. Sierra Club meetings at NCB are open to all, so feel free to sign up or drop in. Refreshments will be available

Wednesday, June 7 at 7pm

North County Branch Library 65 Halstead St. Clinton, NJ
