Minecraft STEAM Program

This is a 90 minute STEAM program combining Bricks 4 Kidz of Hunterdon-Somerset (STEM) with Young Rembrandts' (ART) drawing enrichment program. It starts with the participants drawing free-hand, a cube-like-pixel-block character. During the process, they learn about perspective, depth and proportion existing in the real world. The 2-dimensional activity will be intended to spark their imaginations for continuing with the Lego building portion. After 45 minutes, the participants will transition to their 3-dimensional project with Bricks 4 Kidz.
